World Health Day 2022 Theme

#Our_Planet_Our_Health

Among the biggest health threat that humanity faces during this pandemic, are climate crisis, the burden of a **Polluted Planet** and increased chronic diseases

TEAM PRITHVI

Our planet our health

In the midst of a pandemic, a polluted planet, increasing diseases like cancer, asthma, heart disease, on World Health Day 2022, WHO will focus global attention on urgent actions needed to keep humans and the planet healthy and foster a movement to create societies focused on well-being.

As a part of this day we organised a Cleanup of St Andrews Beach. We split into four groups, each group was assigned an area. We did the cleaning during the forenoon under the leadership of our program officers.
