

**VISIT BY DEPARTMENT OF GEOGRAPHY TO OSMANIA UNIVERSITY AND
NATIONAL REMOTE SENSING CENTRE (NRSC), HYDERABAD ON 9/10/22 &
10/10/2022**

Department of Geography, Government College kariavattom conducted an institutional visit to Osmania University, Hyderabad on 09/10/2022. The motto of the visit was to understand the academic scene in this large knowledge center. As an oldest university in South India which offer ample opportunities for quantitative techniques in geography like Remote Sensing. Geographic Information System and overall Geo Spatial environment, it well familiarized the third year students (2020- 2023 batch) of our department with their research development ideas, increased popularity of online education in higher education sector, different phases of geospatial technology etc. The visit to Department of Geography in Osmania University shaped our students for future opportunities.

The students of the same batch visited (Industrial Visit) National Remote Sensing Centre (NRSC) outreach area on the next day. The students got some important tasks and familiarized the following there:

1. Participated in the Quiz competition and got Second position
2. Meet the Scientist programme and interacted Space significance matters
3. Visited the Exhibition hall in the campus
4. Received Lectures and Videos sessions

Experimental learning from proper training, outsourcing, exhibition, Web services and Information activities there proved worth for students in our department for their further research development activities.
