IQAC Suggestions for improvement based on the result analysis report forwarded by individual departments and the discussion thereafter are as follows:

1. Conduct remedial classes for slow learners.
2. Encourage peer group teaching and create study groups among students to collaborate on difficult topics and share study resources.

3. Focus more on practice exams and mock tests relevant to your courses or subjects to prepare effectively for exams. Maintain an efficient Question Bank in each department for that purpose.
4. Provide counselling to tone mental health through "Jeevani" programme services, for students where academic stress or personal issues are hindering their academic performance.
