

AKSHARATHURUTH

An area was identified near a pond in the village with provision for setting up a mini outdoor gallery. Students from our college under the leadership of Sri. Manoj KS and Dr. Prakash A cleaned the water source & the area surrounding the pond and assisted in the construction of the gallery. Flowering and other ornamental plants were planted around the pond. This beautified gallery with an eco-friendly ambience, has been utilized for conducting interactive sessions and small gatherings.
