**Thiruvananthapuram**

**Action Taken Report based on Feedback**

**2018-2019**

## ACTION TAKEN REPORT (2018-2019)

The feedback collected from the students were analysed by IQAC and the following actions were taken. Several issues were highlighted in the feedback received from students.

- Some of the necessary subject areas are not sufficiently covered in the curriculum.
- Effective learning experience is less and is not sufficiently engaging.
- Knowledge update of teachers is not up to the expectation.

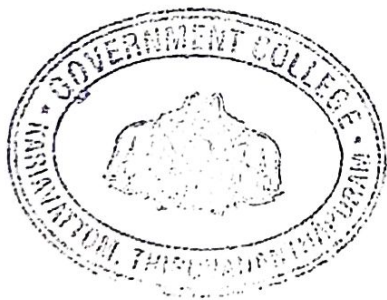

As these issues collectively contribute to a less than optimal educational experience for students, impacting their overall learning outcomes and satisfaction with their academic journey the following actions were taken by IQAC

The IQAC conducted meetings with faculty members to discuss and resolve the concerns raised by students. Faculty members mentioned that the curriculum revision is held every three years and assured that the identified issues will be addressed in the next cycle of revision. IQAC also encouraged the faculty to attend courses and programs which are aimed at enhancing their subject knowledge for greater benefit to the academic community.

The college alumni had raised concerns about not being informed about events in the college in advance. It was decided to promptly notify the alumni about all the upcoming programs as and when planned to ensure their involvement and participation.

Faculty had raised the requirement to fully equip the campus with WiFi. This requirement was addressed by strategically placing access points and routers throughout the campus. It was decided to submit a detailed proposal mentioning the need for upgradation of the IT facilities to the DCE to ensure the campus is fully functional in this regard.

The IQAC ensured that these issues will be rectified by next academic year.

Dr. SABEEN. H M
