## **ALUMNI ASSOCIATION, GOVERNMENT COLLEGE KARIAVATTOM**

Since the establishment of Government College Kariavattom, Alumni played a vital role in its development. Alumni of our college maintain relationships between our institution and our students.

Since 2018, Alumni contribute to our college in many ways which includes:

- Improve reputation: Alumni achievements can boost an institution's reputation, which can attract future talent
- Support our students financially – Endowment Awards
- As Speaker in Invited talks/ Seminars
- Contributing to department libraries
- Involve in extension activities
- Create networking opportunities: Alumni networks can help students transition to the professional world by providing job and internship opportunities
- Provide valuable feedback in interactions: Alumni can provide critical feedback based on their experiences

# INVITED TALK by GRAVITONS (The Alumni Association of Department of Physics)

**Topic:**

“*Understanding molecules in space from Earth*”

Polycyclic Aromatic Hydrocarbons (PAHs) and water play crucial roles in star and planet formation. Observations by JWST and ALMA have revealed water's origins from pre-solar chemistry. This talk delves into the astrophysical context, experimental studies on mixed water-PAH clusters in the gas phase, and their relevance to protoplanetary disks. Additionally, it provides insights into research opportunities and practical guidance for starting a career in this fascinating area of astrophysics.

**About the Speaker**

**ARYA M NAIR**  
Email: [arya.nair@irsamc.ups-tlse.fr](mailto:arya.nair@irsamc.ups-tlse.fr)
